THE BAID AND GRAY!

Many, since the great discovery of Prof. Wood, have attempted not only to initiate his restorative, but profess to have discovered comething that would produce results identical; but they have all come and genebeing carried away by the wonderfal results of Prof. Wood's prejaration, and have been torced to leave the field to its resistless sway. Read the following:

Prof. O. J. Wood & Co. Gents: The letter I wrote you in 1856, concerning your valuable Harr Restorative and which you have published in this yieinity and elsewhere, has given rise to numerous inquiries touching the thete in the case. The inquiries are, first, is it a neet of roy habitation and name, as stated in it ecommunication; second, is it true of all therein contained; third does my hair still continue to being sood order and of natural color? To all I can had will answer invariably yes. Say hair is even better than in any stage of my life for lerty yeas past, more soft thiffyind letter colored; the sime is true of my whiskers, and the only came why it is not generally true is that the substance is washed off by frequent abintion of the feee, when if care were need by wiping the fine, in close connection with the whiskers, the same nevul will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my limit still continues to be good; as there is so much fraud in the manufacture and sail of various compounds as we I as this, it has no doubt been basely imitated and been used, not only without any good tutto absolue injury. I have not used mny of your Festorative of any secount for ome months, and yet my hair is as good as ever, and hundreds have x mined it with surprise, as I am now 61 years old and not a gray hair in my lead or on my face; and to prove this fact. WOOD or COAL.

Ahead of all Competition! 5463 of them manufactured last year-more than double the number of any other first class stove in one year, in the United States.

THEY contain all the improvements which are in all the first class stoyes, and the advantages and improvements over other stoyes are in part as follows:

1st. The arrangement for broiling on the front hearth,
—an improvement overlooked in other first class stoyes,
it has also the same arrangement for broiling on top.

2d. A thorough varification of the Over.

21. A thorough ventilation of the Oven.

33. Introducing hot air draught to the fire chamber, thereby increasing the draught of the Stove, quickening its operations, and enabling it to throw out more heat—a matter much and justly complained of in other Stoves.

ith. An important improvement in the application of the damper, which throws the heat around the oven. 5th. Much greater weight, consequently heavier plates and more durable as well as handsomer castings.
6th. A draft damper at each end of the fire box, so that the fire is equalized, and one gridle will heat as quick as the other, also heating the even in half the time.

7th. Fire back protected by scap-stone, so it cannot

burn out.

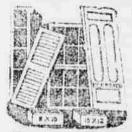

Ella addition to the above improvements, it has all that is combined in other first class Stoves, via —Hot water fienervoir. Warming Closet, Roaster in front, Baker on top, Boors Roed with test Russia Iron, &c., &c. Further, this stove is warranted to do the work with as little fael as any other stove is the market, and in a superior manner. All who want a firstlelass Stove, should never buy until they call and see the toop Savararan, as they have in every instance given satisfaction.

I am the exclusive agent for the sale of this Stove in Montpelier, and sell it on trial for any reasonable length of time; so all are safe in buying.

I have also as full an assortment of Common Staves on hand as any other dealer in Washington County, and sell as low as any one in the State.

undreds of cases of Kidney complaints, count in the Kidney of the White Pine Compound, have been reported by druggists. Here are two santases. An aged man in Danvers, Mass, heard of the Compound, as a wonderful carative for kidney or implants

pound, as a wonderful curative for kidney complaintseing a great sufferer from that dimentry, he sent to the Ap theory for two bottles. They cured him, there were worth fifty dellars—the has since sold a real many bottles husself.

The second case was that of a business man, in Salam Mass, the was also curred of the same complaint. After wards he went to Minnesota. The great fail, us of injuriety brought on a return of his former difficulty, as seeking in vain in Microsota for the Compound, he was compelled to send all the way to Salam to have it lowered by express.
